

## **Summer Reading 2010 by Level: Chapter Books, Picture Books & Nonfiction**

*Note About Summer Reading:* After numerous parental requests, I have reorganized the Chapter Book section of this year's summer reading list so it reflects grade ranges. While reorganizing this list, I found myself hesitating to provide a graded range because interests, experiences and abilities vary so much within and between grades. I offer these ranges as suggestions and/or as starting points for choosing books, rather than targeted/specific reading levels. For synopses and reviews, I encourage you to visit the [CSB Amazon site](#).

Because many readers find series books the literary equivalent of hanging out with a good friend, I've included a designation for such books as "-series", as well as the wildly popular graphic novels. While these complete books written in pictures/images may appear to be comic bookish in nature, they offer a rich array of literary devices and complexity that enhances reading skills and provide engaging reading experiences, for both enthusiastic and reluctant readers.

Reading is important during the school year and over the summer. As your librarian, a reading teacher, and a parent, I encourage you to demonstrate the importance of reading by establishing a daily habit of reading for your family. And while there are no specific required titles, I hope that this year's choices of leveled chapter books, nonfiction and picture books spark a summer of adventure, discovery and great reading pleasure!

-Helen Huber, CSB Librarian
